

# Recent Testimonials!

I get GREAT support from the Levinson team when you need help with something or have questions. Noah and Andrew have been TERRIFIC! They both spend plenty of time, sharing information about the best carriers to contract with, explaining the best way to utilize the back-office system and getting set up so things run smoothly. Christianne Holland is also AMAZING! She helps agents who need Impaired Risk Assessments and Quotes.

Joshua Hoffman is another notable person who is great for agents who want to sell Long-Term Care Plans, Annuities, or Indexed Universal Life plans. Keep up the great work!

Dear Cary & Bill,  
Congratulations on 50 years of great service to our financial industry. Your agency has always given me the best and most professional guidance and service, through out the past 12 years, of our association. Your staff is always available for a friendly and professional interchange, regardless of my inquiry. Whether its to answer a simple question on products or carriers, or to request a quote, they are always available with the answers I need to complete the case. It is my pleasure to be associated with the Levinson, organization, where every Advisor, Broker and Agent, is treated like a Million Dollar Producer. Thanks, to you and Bill, for creating this great agency. Best wishes for many more years continued success.
