2 There are circumstances in which converting your client's existing life insurance or annuity can benefit your client. You should provide your client with detailed information as to how a conversion may affect your client's plan of insurance. You should make a careful comparison of the costs and benefits of your client's existing policy and the proposed policy to determine whether conversion is the right decision for your client.

3 PL PROMISE TERM Level Premium Term Life Insurance. Policy Form #P16LYT or ICC16 P16LYT and S16LYT10, S16LYT15, S16LYT20, S16LYT25, or S16LYT30, based on level premium period chosen and state of policy issue.

4 The No-Lapse guarantee, depending on how your client structures the policy, has a maximum duration of the insured's lifetime, subject to certain limits. If the net no-lapse guarantee value is zero, the no-lapse feature terminates. If the no-lapse feature terminates, additional premiums would be required to resume the no-lapse guarantee. If policy performance is such that the policy is being maintained solely by the no-lapse guarantee, the policy will not build cash value. If policy loans or withdrawals are taken, additional premiums may be required to keep the no-lapse guarantee in force. The No-Lapse Guarantee Rider (form #R17LYFNL or ICC17 R17LYFNL, based on state of policy issue) is included in the policy at no additional charge.

⁶ Benefits paid by accelerating the policy's death benefit may or may not qualify for favorable tax treatment under Section 101(g) of the Internal Revenue Code of 1986. Tax treatment of an accelerated death benefit due to terminal illness depends on the life expectancy of the insured at the time benefits are accelerated. Receipt of accelerated death benefits may affect eligibility for public assistance programs such as Medicaid. Tax laws relating to accelerated death benefits are complex. Pacific Life cannot determine whether the benefits are taxable. Clients are advised to consult with qualified and independent legal and tax advisors for more information.

⁷ Universal life insurance generally requires additional premium payments after the initial premium. If either no premiums are paid, or subsequent premiums are insufficient to continue coverage, it is possible that coverage will expire.
